

**Boston University
School of Medicine
Division of Graduate Medical Sciences
72 East Concord Street, Room L-315
Boston, MA 02118**

Students in the Graduate Programs at Boston University School of Medicine (MED) submit their dissertation directly to the Division Office, L-315, rather than the Mugar Library as indicated in the Library's Research Guide. The Division Office will prepare the bill and deliver the copies to the library. Please follow these instructions when submitting your dissertation to the Division Office.

1. **Dissertation format review: Once both readers have approved dissertation, you may drop off a hard copy of your completed dissertation on regular paper no earlier than one month prior to final submission.**
2. **Submit two copies of the dissertation with original signatures in each copy:** The signature pages should be printed on the same type of paper as the dissertation. Paper requirements are indicated below. Please include an extra copy of the title page and the abstract.
3. **Paper requirements: 20Lbs, 25% cotton fiber or rag content:** An acid free, non-yellowing paper is recommended but not required. This paper is sometimes referred to an "Archival Bond". Please ask the copy center you choose to put each copy in a separate box.
4. **A check in the amount of \$115.00 made payable to "Boston University":** This covers the cost of microfilming binding, and shipping the dissertation. If you are leaving the area and closing your bank account, it is suggested that you use a bank or postal money order.
5. **If you choose to copyright, please submit a separate money order for \$55.00 made payable to "ProQuest".**
6. **If you want copies of your dissertation from ProQuest, you may order them at a reduced rate at the time you submit your dissertation:** A separate money order, which includes the price of the copies and the sales tax for the state of which the order will be shipped, must be submitted when you turn in your copies. Many students find it easier to charge the cost of the copies to a credit card. Please note that although the brochure indicates delivery within ten to twelve weeks, it has sometimes taken six months to receive the copies.
7. **Survey of Earned Doctorates:** The Dean of the School of Medicine requests that you complete this survey. Most students do not object to completing this form. However, if you do not wish to participate in the survey, please write your name on the form and your major field, and state that you do not wish to participate in the survey. By doing so, the National Research Council will not contact the Division Office and request your address to send you a form to complete.
8. **You will be required to register for the next academic semester if thesis has not been submitted by the deadline date. [\(Please refer to the graduation calendar for deadlines\).](#)**

PLEASE NOTE THAT THE DEADLINE FOR SUBMITTING YOUR DISSERTATION IS A FIRM ONE.

If you are having any difficulties, or need answers to questions regarding the procedures for completing your final requirements, please do not hesitate to contact Millie Agosto, 617-638-5124. Please realize that the mechanical part of producing the dissertation is very time consuming; please allow ample time to complete all corrections and revisions.

GOOD LUCK!
